

MAXIME LAROCHE

Montréal, Québec

(514) 348 - 0345 ♦ Maxime-1.Laroche@polymtl.ca ♦ maximelaroche.github.io/portfolio

EDUCATION

Bachelor of Software Engineering

2020 - 2023

Polytechnique Montréal

GPA : 3,36 Excellence scholarship received at admission.

Bachelor of Electrical Engineering

2018 - 2019

Polytechnique Montréal

Excellence scholarship received at admission.

Changed to software engineering due to changed interests

PROJECTS

Online scrabble game

2021

- Collaboration with a team of six to implement an online scrabble game
- Agile development
- Angular used for client application, socket-IO for syncing games, NodeJS for server-side logic and MongoDB for data persistence
- Learn about time and project management

Autonomous Car

2021

- Little car that can navigate in its environment using ATmega324PA microprocessor
- Use of Ultrasound sensors to make sense of obstacles
- Project realized with C++
- management of the team to ensure good collaboration and to make sure due dates are respected

TCP File Server

2021

- Design of a cloud local network cloud storage application using java
- Made to share large files between computers on a local network

EXPERIENCE

Full stack engineer

May - August 2022

Morgan Stanley

- Design and implementation of a website + back end server using react and spring boot.
- Database deployments based on liquibase
- writing end to end and unit tests

Service engineering

January - August 2020

Bombardier

- Design of data collection and analyzing software made to optimize workflows within the company.
- Learning a new language (VBA) on the spot
- Project made with iterative design
- Ground support equipment design.

GENERAL KNOWLEDGE

Programming languages

C++, Java, Python, Typescript, JavaScript

General tools

Angular, React, NodeJS, Spring boot, Spring data, Git

Languages

French and English
